

Detecting Threats Against Critical Infrastructure

The ProtectWise Grid

Presenters:

- Steven Parker, CISSP, CISA
Managing Partner, Archer Energy Solutions
- Darrin M. Mourer, CISSP
Director of Systems Engineering at ProtectWise

Agenda

- Introductions
- Industry Landscape
- ProtectWise Demo
- Q&A

Introductions

- Steve Parker
 - 16 years in the electric sector
 - Former WECC Auditor
 - Extensive cybersecurity experience

- Darrin Mourer
 - 17 years cybersecurity experience
 - Manages pre/post sales deployments at ProtectWise
 - Previously led North America security consulting practice at Symantec

Industry Landscape

- Power grid as target
- Great diversity in organizational resources and capabilities
- Emerging requirements and expectations (Beyond NERC CIP)
- Rapidly expanding marketplace for solutions
- Recognition that outside help is needed

ProtectWise Demo

Darrin Mourer will lead us through a demonstration of the ProtectWise Grid interface and capabilities
